WIRELESS · TEM AUDIT

Wireless Auditing Overview

A structured, three-tiered audit framework that surfaces hidden wireless waste, from quick variance checks to deep contract renegotiation. Every line, every plan, every charge: validated against the rates you actually agreed to.

6–9%
Typical wireless spend reclaimed in the first audit cycle.

2–4%
Of total invoice value lost to billing-code errors and stale rates.

15–30%
Annual telecom savings unlocked by a disciplined TEM cycle.

TIER 01 · FOUNDATION

Cursory Audit Items

CADENCE
MONTHLY

A monthly health-check across recent invoices. We flag anomalies, runaway charges, and unexpected fees before they compound into recurring waste.

- Variance review across billing periods
- Data, voice & messaging overage review
- Termination charge validation
- International charges review

TIER 02 · OPTIMIZATION

Comprehensive Audit Items

CADENCE
QUARTERLY

A full inventory and services analysis. We benchmark every line, plan, and feature against utilization data, then build the case for consolidation, suspension, or vendor change.

INVENTORY ANALYSIS

- Lines with no usage review
- Fraudulent lines review
- Inactive user review (where applicable)

SERVICES ANALYSIS

- Unneeded or unapproved features review
- Plan optimization

BENCHMARKING

- Alternative vendor comparison
- Vendor consolidation

TIER 03 · RECOVERY & STRATEGY

Contract Negotiation

CADENCE
ON-CYCLE

When an MSA is up for renewal, or when the audit uncovers contract drift — we negotiate directly with carriers as your carrier-neutral advocate. Zero revenue from carriers, full alignment with your bottom line.

- Contract compliance review
- Double billing investigation
- Rate & discount validation
- Direct contract renegotiation
